

# Etem Senel

## FrontEnd Developer

📍 Mission, Kansas, US    ✉ etemsenel96@hotmail.de    🖱 etrafa.github.io/etem-senel/

### Summary

Seeking an entry-level position to begin my career in web development within a high-level professional environment. Aiming to participate all throughout the development process and expand my current skills at the same time.

### Projects

#### Google Home

HTML, CSS

Redesigning the Google Home landing page, with modern and interactive user interface.

#### Spin & Wheel Game

HTML, CSS, Javascript

A quiz game application that users can spin the wheel and answer the questions which are given randomly. A third party API is providing all the data for this website.

#### CryptoCurrency App

React, Bootstrap

A cryptocurrency app, connected to the third party API, where user can see the latest price of the coins with an advanced graph and read the articles about currencies.

#### Gallery App

React, Tailwind

A gallery app, where users can interact with the modern user interface to discover millions of pictures based on their search.
